

Rizan Mohamed

Senior Software Engineer

I am an enthusiastic Web and Mobile app developer who has been proven as a quick learner in many real-world scenarios. Have more than 7years of experience in Mobile and Web development using various technologies.

Work Experience

Aeturnum Lanka, Nugegoda Nov 2023 - present
Aeturnum Lanka, Nugegoda

Working as a Lead senior Engineer on a **Flutter** project in Healthcare industry.

Aeturnum Lanka, Nugegoda Oct 2021 - Oct 2023
Aeturnum Lanka, Nugegoda

Working as a Senior front-end engineer to estimate and complete tasks in a agile manner in a **Typescript, ReactJS**, project.

Senior Software Engineer Apr 2021 - Oct 2021
Mitra Innovation, Moratuwa

Had to take **ownership** of the full **Front-End source code** of the below mention project, while **coordinating** 3 - 4 other junior developers. additionally worked on some **PHP** code changes.

Software Engineer Apr 2020 - Mar 2021
Mitra Innovation, Moratuwa

While maintaining the below mention React-Native app, I have been working on a online payment wallet project which is also a **React-native** project. But had to develop as a separate **private NPM module** using **Verdaccio**. So can install on any other same vendor's application (**Both Mobile and Web**)

Associate Software Engineer Apr 2019 - Mar 2020
Mitra Innovation, Moratuwa

Mainly working on **React-Native** and **VueJS**. Also, other techs like **MySQL, NodeJS** and **Firebase (Crashlytics, analytics, Push-Notification** etc...) was my main focus. Also worked on **Bitrise CI/CD** tool and **AWS EB**.

Android: <https://play.google.com/store/apps/details?id=com.amatak.mycellcard>

IOS: <https://apps.apple.com/us/app/cellcard/id977888051>

Internship - Software Engineer Nov 2018 - Mar 2019
Mitra Innovation, Moratuwa

Was able to contribute to the project with real development task in a short period since I already had experiences in **ReactJS**. Mainly worked **Unit Test** writing for a Banking ReactJS app.

Then I had been moved to a **React-Native** project. While doing the React-native tasks I also had to maintain a **Headless CMS (Strapi, Directus)** for feed dynamic data to the mobile application.

Web Developer - Freelancer June 2018 - Nov 2019
Online / Local

Working as a **Full-Stack** Engineer in a **POS** system using **ReactJS, NodeJS (TypeScript)** and **MySQL(Sequelize ORM)**.

Develop an online Quran search application for a website using **PHP** and **HTML/CSS/JS/Jquery**.
